

Bluestone Golf Course

Thank you for playing the Bluestone Golf Course!

Designer: Rick Sugarman

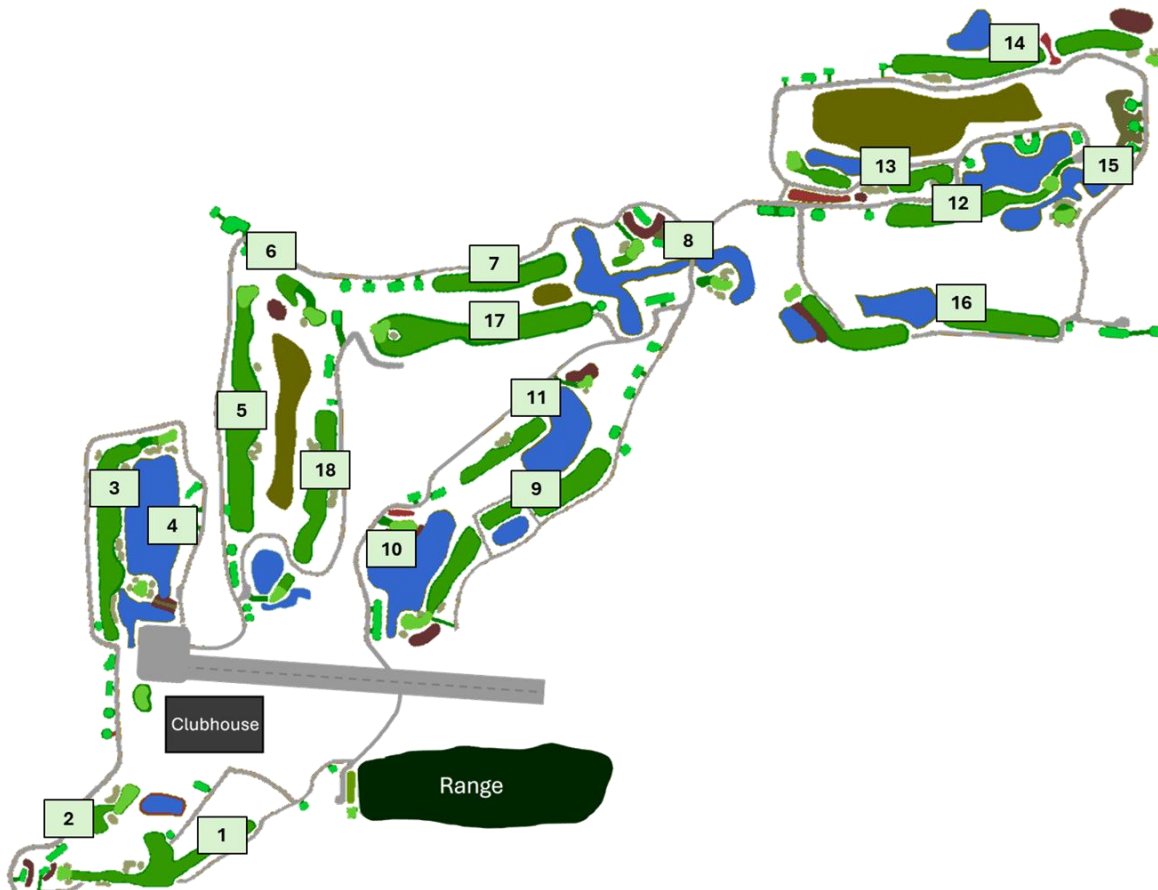

Course type: Fictional, Parkland

Par: 34-36 – 70

Yardage:

- Black: 6732 yards
- Blue: 6176 yards
- White: 5613 yards
- Red: 4727 yards

Note that holes 3 and 5 are played as a combination of a par 4 and a par 5 respectively, or vice versa. This provides a different experience for those holes while maintaining the same overall course par and similar total yardage.

Designer notes:

Thank you so much for downloading and playing my course, the Bluestone Golf Course! I started this design many years ago and thought it might be nice to finish and release it to contribute to the JN6 community. I've released a couple of other courses, Portage Golf Club (a very early design!) and La Paz Resort, and have contributed holes to a few group designs.

My inspiration for Bluestone came from a real course I played many years ago in New York called The Lazy Swan Golf and Country Club. I remember it being a really pretty course with views of the Catskills and lots of water. This is not a re-creation of The Swan, but rather my design interpretation and styling. The Catskills are known for sandstone slabs known as bluestone, which is why I incorporated that theme into the course. I also wanted to give the feel of being out in the country among the farmlands of upstate NY.

I used a few custom objects that I created, but also some from the designer community. My apologies as I don't know who created what objects but thank you to those who contributed by placing them out there for others to use! Also, thank you so much to those who have helped playtest courses for me and given me advice over the years which helped me with this course, including Terry Armstrong, Steve Holden, Brad Lanagan, and Charlie Roberts.

I really hope the community enjoys playing this course as much as I did in designing and building it for JN6!

- Rick
